

EUPVcycle

**The expert
packaging waste
management
consultants**

First-class advice

Complying with the German Packaging Ordinance (Verpackungsverordnung) regulations is full of complex challenges; not just for packaging manufacturers and distributors but also for recycling and waste management companies.

With **EUPVcycle**, our European packaging recycling standards inspection agency, we help our clients to strictly comply with the legal requirements. Our team of sworn experts, officially appointed by the German Chamber of Commerce and Industry, auditors and tax advisors has a wide range of expertise and will be delighted to be able to advise and help you.

Your advantages:

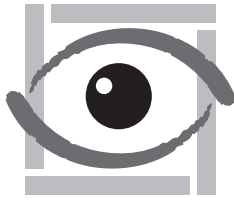

Longstanding expertise

Services at a glance ...

... for packaging manufacturers and distributors

- Assessment and certification of the statement of completeness as per Section 10 of the German Packaging Ordinance (VerpackV)
- Packaging categorization according to packaging type, material type and collection point
- Packaging weighing and material classification
- Advice on the recyclability of your packaging
- Training courses for manufacturers and distributors, statement of completeness auditors and system operators

Global market expertise

... for recycling and waste management

- Worldwide plastics recycler certification in accordance with the EuCertPlast accreditation scheme
- Sorting analyses and sampling
- Worldwide certification of waste recovery and recycling plants in accordance with VerpackV specifications
- Assessment of the RAL UZ 30a basic award criteria requirements for applying for the Blue Angel ecolabel award
- Full and partial mass flow assessment and advice

Reliably sound certification

What we take for granted:

Accepting and carrying out your commission also means guaranteed maximum data handling confidentiality and discretion.

You can rely on our discretion, and also on the fact that we will carry out everything you have asked us to do reliably, conscientiously and based on longstanding experience.

Contact details

We are happy to explain the legal requirements, our solution ideas and our services to you in person.
